

MODEL RM-2

"LITTLE SWITCHER" REMOTE SWITCH

- Low Cost
- Rated 6 amps @ 120 VAC
- Easy installation
- No mounting hardware
- Lightweight

The Model RM2 "Little Switcher" Remote Switch is a single pole switch with contact ratings of 6 amps at 120 VAC. This unit requires no mounting hardware as it is light weight enough to be sus-pended from the cable connecting the unit into the circuit.

To install remove the four corner screws and open the unit. Pull the circuit wire that the unit will be connected into through the strain relief and tighten. Be sure if the unit is installed in an area where water may run down the cable onto the unit, that a drip loop or knot is provided in the cable to keep the water out of the unit. Connect the wires to the switch module and re-install the cover being sure to tighten the screws.
